RE: Open Position

To the company's hiring committee:

Having recently learned of the Software Tester opportunity, I wanted to contact you to express my interest. I believe that my qualifications closely align with the type of candidate you are seeking.

The value I will bring to your organization includes a comprehensive skill set developed through my academic and employment experiences. . In previous positions, I have contributed to positive improvements and team achievements through my quality control experience in the meticulous field of aviation.

In my previous roles I was a skilled and hardworking aviation mechanic, but due to the ongoing pandemic my previous employer was forced to lay off all employees. While this period was unplanned and unexpected, I put the time to good use by choosing to follow a new career path and further expand my education.

Although my experience as a software tester is limited, I have shown dedication in this new career by completing numerous online courses and achieving my Certified Tester certificate from the International Software Testing Qualifications Board.

Throughout my years at my previous jobs, I have shown much dedication, loyalty, reliability, and discipline to always get the job done as efficiently and correctly as possible. I am fluent in both Spanish and English which helps me communicate better with people. My amiable personality lets me get along with my supervisors and co-workers and I have never received any complaints. I would like to exert all of my knowledge and dedication into your company and become a member of your team.

Thank you for taking the time to review my qualifications. I will appreciate a chance for an interview so we could further discuss this position.

I appreciate your consideration.

Best regards,
LUIS ARZANI
